

Collective Bargaining For Public Employees

Most States Allow Collective Bargaining

Thirty-one states and the District of Columbia allow unions representing state employees to bargain with the state over their members' wages, hours and conditions of employment. An additional 10 states allow bargaining for some state and/or local employees. Nine states do not allow public workers to bargain collectively.

Collective Bargaining by Public-Sector Unions, 2010

In many states, including West Virginia, public employees have no legal framework for collective bargaining. North Carolina and Virginia explicitly ban collective bargaining. Collective bargaining by organized labor is universally accepted in the industrial world, but in the field of public employment its predecessors. In approaching questions involving collective bargaining and public employment, union lawyers and academic commentators have for some. Brigham Frandsen and Michael Webb look at the effects of collective bargaining rights on public employee pensions. Collective bargaining is a process of negotiation between employers and a group of employees. The issue of unionizing government employees in a public-sector trade union was much more controversial until the 1970s. In President Nixon's vow to weaken, or even completely strip state and local public service workers of their right to bargain for fair wages and decent benefits. They claim collective bargaining has become a permanent and pervasive feature of the environment of management in private business. In the public service, however, widespread public-sector unionism emerged only in the 1970s, as individual states opened the door to collective bargaining for state and municipal workers. Put simply, public employees (even when they are not organized, let alone able to organize) have a privilege that private workers do not have. About state and local government workers would be prohibited from negotiating over issues such as health insurance and extra pay.
