

# Unmentionable Cuisine

## *Unmentionable* CUISINE

**CRAIG CLAIBORNE** . . . This is a unique and engrossing work and, to my mind, an important contribution to the annals of gastronomy. It will not, of course, appeal to all palates . . . but neither do snails and sweetbreads, brains and other oddments of animals.

**JAMES BEARD** . . . I read from cover to cover with huge enjoyment. It is a remarkable and fascinating treatise. . . . I can recall no other book that has covered the subject of strange foods with quite his flair and authority, and I consider the book required reading for anyone interested in the lore of food.

**M. F. K. FISHER** . . . He can indeed play Till Eulenspiegel . . . but he is dead serious, and his peculiar book about the unmentionables, the taboos, the conditioned prejudices we all accept, is an important one.

University Press of Virginia  
Charlottesville
